

## COMPANY PROFILE

**Alchemy Solutions** is a globally focused IT company with strong capabilities in Training and H.R Consultancy. **Alchemy Solutions** is based in Bangalore, India, and has a dedicated team of professionals with diverse technical skill sets. This number is steadily growing to help us achieve our vision and goals.

**Alchemy Solutions** is your source for reliable and productive consultancy. Stringent quality standards, exceptional resource capabilities and a consistent record of delivering solutions to clients on schedule, drive the company's focus.

### Training Division:

Every employee in a company has an impact on the quality of the product or service. Well-trained and competent employees are a strategic advantage for any organization.

From Induction programs to higher end technology training, from "College to Corporate Culture" to Motivational programs, training help to focus on organizational goals and bridge the gap between productivity deficiency and productivity effectiveness.

Primarily for the corporate clientele, **Alchemy's** training solutions cover a wide range of technology and soft skills courses. In keeping with our mission, we aim to provide customized training solutions that enable our clientele to increase the knowledge and core competencies, and therefore, the overall productivity of the organization increases.

**Alchemy Solutions** is known for using its specialization and expertise to impart training to the corporate world.

**Alchemy Solutions** has access to a wide network of trainers and consultants. Onboard are a capable team headed by the CTO of training. Other consultants work through strategic alliances with Alchemy Solutions. This allows Alchemy Solutions to service a wider gamut than most other Corporate Training companies and to fine tune the same to meet the customer's end objective to any training program.
